

## OLLINS LANDE 'SOLO' TECHNICAL REQUIREMENTS (2021)

1. If Backline provided:      1 vocal mics with stand and XLR lead  
1 DI inputs for guitar plus instrument jack leads  
1 standard AC power socket available (for lead guitar pedal board)
2. If no Backline provided:      2 standard AC power sockets  
Ideally at least 8 feet x 5 feet floor space and location for PAs

For option 1 above, Ollins can supply all mics, stands and leads if none provided with backline. We can also input straight into sound desk if no DI boxes available.

## OLLINS LANDE 'BAND' TECHNICAL REQUIREMENTS (2021)

3. If Backline provided:      2 vocal mics with stands and XLR leads  
4 DI inputs for guitars plus instrument jack leads  
4 standard AC power sockets available (for guitar pedal boards, keyboard and bass amp)
4. If no Backline provided:      6 standard AC power sockets  
Ideally at least 18 feet x 10 feet floor space and location for PAs

For option 3 above, Ollins can supply all mics, stands and leads if none provided with backline. We can also input straight into sound desk if no DI boxes available.

***NOTE: All of the above are a suggested minimum for Ollins to perform live. If some/all not available please contact us, as we are happy to attempt to fit into your technical specifications. Ollins is able to fit into all sizes of venue.***
